Devashish
Software Developer.   Computer Science Degree

+91-7457810950
devashishp1999@gmail.com

Experienced in building applications using **JavaScript, React, Angular, HTML and CSS**. Passionate about solving problems and creating high-quality user experiences.

Experience ~ 2yr 9m

UnStop🔗
SDE-1 : AngularJS, PHP, Laravel

New Delhi, India
Aug 2023 - Present

➜ Collaborated with cross-functional teams, including designers, product managers, and senior developers, to deliver high-quality solutions within tight timelines.
➜ Contributed to codebase improvements by troubleshooting and resolving bugs and adding new features, resulting in improvement in applications' performance.

Q2A Media🔗
Software Developer - JavaScript, ReactJS, NodeJS

Noida, India
Apr 2022 - July 2023

➜ Collaborated with the team to transition the Lift Learning digital platform from RoR to **ReactJS** and Rail, resulting in an optimized user journey and a **profit increase of $200K.**
➜ Developed drag-and-drop feature for a quiz system, improving user experience. I leveraged my learnings from this feature to **create a JS library** with advanced functionalities. The library currently has 300+ downloads on NPM.
➜ Developed web apps that provide **interactive graphic tools** for teaching mathematics and explaining various concepts like Time, Area-Perimeter, Addition, Multiplication, Shapes, Number Lines and more.
➜ **Optimized the application performance** by 30% by implementing Tree and Hashmap data structures with concepts like DFS and adjacency list.
➜ **Mentored and trained** interns on JavaScript & React best practices, resulting in an increase in productivity and quality of code.

Freelancing
Front-End Development

Self-Employed
Jan 2022 - Apr 2022

➜ Collaborate with clients to develop and implement custom websites and web applications using HTML, CSS, JavaScript, React, React Native, VueJS, Figma resulting in a 100% satisfaction rate among clients.
➜ Develop and maintain a range of client websites, including SaaS Platforms, Interactive Web Tools and features for existing websites.

Skills

Proficient : JavaScript . TypeScript . ReactJS . AngularJS . Redux . UI/UX . Git
Familiar :   NextJS . AngularJS . VueJS . Figma . NodeJS . PostgreSql . Laravel . php

Projects

Vidds.co - 🔗Website
- Full fledged online SaaS platform to create and edit videos.
- Developed dashboard for the platform using Vue, the Javascript library.

Drag-drop-plus - 🔗Github
- **JS library,** to drag any element from the DOM and drop it anywhere on DOM.
- The library currently has **300+ downloads on NPM**. Which has an Object Oriented Programming paradigm.

Interactive Learning Tools
- Bar Modal🔗 | Area Perimeter Tool🔗
- Interactive tools for learning various concepts for students.
- **Skills developed** : DOM manipulations, planning projects from scratch, creating & working with complex data structures, optimizing code & performance, learning from documentations and google-ing.

Education

Uttarakhand Technical University
Bachelor of Technology (**BTech.**)
in **Computer Science and Engineering**

Uttarakhand, India
Aug 2017 - Dec 2021
